

# THINK OUT OF THE BOX

American Rottweiler Club affiliates and local Rottweiler clubs can now offer the Rottweiler Measurement Survey as an adjunct to their specialty show or as a standalone survey/seminar event.

The survey is an excellent learning vehicle for members, exhibitors, breeders and a great source of additional revenue for your club. The survey certificate is an official document of the American Rottweiler Club, worthy of adding to the list of your dog's accomplishments.

Important facts such as, height, weight, eye color, an objective critique, body type, body length, description of gait, dentition, gum pigmentation markings, etc, are surveyed.

All information derived at the survey, including the critique, is published and compiled in the Measurement Survey Booklet and in its database. This database contains the survey results, which can be used as a factual reference when considering a stud dog or brood bitch within the database.

Apart from the valuable information collected on the dogs we breed, entry fees and any other earnings associated with the event are kept by the hosting club. Only a \$5.00 per entry recording fee is returned to the American Rottweiler Club. To inquire and learn more about hosting this special event contact: **Steve Wolfson** [snwolfson@optonline.net](mailto:snwolfson@optonline.net)

The image shows a 'Rottweiler Measurement Survey' form from the American Rottweiler Club. The form includes fields for: File #, Date, Dog/Bitch Name, Reg #, OFA #, Date of Birth, Health Certifications, Sire, Dam, Breeder, Owner, Address, Titles, DNA profile #, Tattoo #, Microchip #, PenHip #, GDC #, Hip reg #, Hip reg #, BODY MEASUREMENTS (Height at Withers, Body Length, Chest Width, Eye Color, Skull Depth, Muzzle Length, Chest Circum, Weight), Type, Condition, Build, Movement, and a section for the President's Signature. A blue digital voice recorder is placed over the bottom left of the form.

## How Does Your Dog Measure Up?
